Summary

I am passionate about frontend web development, with expertise in HTML, CSS, and responsive design. My key achievements include improving website load times, resulting in increased user engagement, and successfully implementing responsive designs that enhanced mobile traffic. I am seeking a Frontend Web Development Internship where I can apply my skills to contribute to innovative and user-friendly web solutions.

Key Achievements

HTML & CSS Development
Built and iterated on multiple personal projects using HTML & CSS, incorporating feedback from peers to improve UI/UX.

Responsive Design Improvement
Designed mobile-first responsive layouts in personal projects, resulting in smooth user experience across all screen sizes.

Performance Optimization Success
Optimized personal web projects to reduce load times significantly, while ensuring full responsiveness across devices.

Projects

OneNest Web App

Built a multi-app React project combining games and tools with responsive design and animations.

QuickQuiz

Developed an AI-based quiz generator that creates topic-specific quizzes and shows instant results.

BoloToh Web App

Built a React app combining funny poem, story, motivation, roast and advice generator using user input and AI integration.

Skills

Frontend Skills: HTML · CSS · JavaScript · Tailwind CSS · React

Backend Skills: Node JS · C++ · Python
